- Perform general maintenance and support duties as assigned
- Maintain cleanliness and organization of job sites
- Perform equipment inspections
- Carry out tagging, and safety verifications in accordance with CSA, ASME, API, and other standards
- Maintain detailed inspection reports and ensure data is entered accurately into asset management systems

Field Technician – Lifting Equipment

- Identify and report equipment deficiencies, non-conformances, or hazards immediately
- Participate in toolbox talks, JSAs, and yard/field safety meetings
- Data entry, email tracking, and document preparation.
- Ensure all documentation is submitted and stored in line with company procedures.
- Update digital systems (project databases, document control systems, inspection logs, certificates etc.
- Manage email correspondence as req
- Organize and track incoming and outgoing documentation for projects, liaise with admin support
- Liaise with project managers and field personnel to collect and file daily documentation.
- Provide reminders, updates, and support for task tracking and deadline compliance.
- Assist team members as required.

Key Qualifications

The right person for this position will have the following qualifications;

- Valid driver's license and reliable transportation preferred
- Positive attitude, strong work ethic, and team-player mindset
- Ability to follow direction and complete tasks independently
- Experience with lifting equipment and rigging.
- Physical ability to work outdoors in yard and client sites year-round, including lifting to 50 lbs
- Strong attention to detail with accurate documentation and record-keeping
- Proficiency with Microsoft Office Suite (Word, Excel, Outlook, SharePoint, OneDrive).
- Experience working within digital files and systems.
- Familiarity with digital documents and adapt to management procedures.
- Excellent communication and a positive, team-focused attitude
- Previous experience in construction, marine, or industrial environments considered an asset
- Comfortable with physical labour and working outdoors

Application Process

Interested candidates should submit their resume and a cover letter detailing their relevant experience online or via indeed or the company's online candidate management system on the company's website.
